Haoyao Wei

Front-end developer and UI designer

maxine.h.wei@gmail.com

Hi, I'm a front-end developer and UI designer with 2 years of experience and an education background in computer science.

Here are some of the web or mobile applications that I designed and developed.

A reservoir management app for logging inspection, reporting security threats, including threats workflow process and summary, etc.

A water resources data platform showcases in visualization of real-time rain, flood information and

11:18:04 2020.10.27

A library web application for showcase of books in stock information, personal borrow data.

VEGA BAR

VEGA BAR's slogan: "The Taste I like!" I after conducting an in-depth market thousands of electronic vaporizer and consumers preferred tastes and prefe all around the world.

Top flavors, oils and highest quality ha combined to develop the world's pren disposable electronic vaporizer. A prodeveloped that will leave you saying: " taste I like!"

CUSTOMERS LOVE US!

I've been smoking vapes and hookah for years and have always enjoyed it but also always thought of things that could be better like eliminating that coal taste from a hookah or making the flavor actually be satisfying and not just tease your taste buds but since I tried Vega bar I am truly stumped! I have not yet tried all the flavors but I'm just about half way through and yet to be disappointed! Just wonder if there is a way or ordering a box

that has 1 or 2 of every flavor?... I would definitely purchase something like that!

Great stuff Vega!

VegaBar customer

.....

I'm also able to build up 3D models with SketchUp and edit the rendering afterwards.
